**Ultimate Facial Rejuvenation  
Live Cosmetic Surgery Workshop**

FEBRUARY 19-20-21, 2010  
NOVEMBER 5-6-7, 2010

RICHMOND, VIRGINIA

## Joseph Niamtu, III DMD

**Fellow of the American Academy of Cosmetic Surgery**  
**Fellow of American Society of Lasers in Medicine and Surgery**  
**Board Certified American Board of Oral & Maxillofacial Surgery**

Dr. Joe Niamtu, III limits his full-time practice to cosmetic facial surgery. He is a fellow of the American Academy of Cosmetic Surgery and has served on the Board of Directors of the Cosmetic Surgery Foundation. Dr. Niamtu is well known in international cosmetic circles. He has written hundreds of articles and several textbooks on cosmetic facial surgery. His office is a National Botox Physician Training Center and he is a Diamond level Botox and filler provider. He also serves as a preceptor for Lumenis, Ellman Int., Implantech, Restylane, Juvederm, Evolence and Dysport. Dr. Niamtu is a frequent lecturer nationally and internationally and has a passion for cosmetic facial surgery and the unique ability to combine learning with fun.

## Welcome to the cosmetic surgery revolution.

Baby boomers are turning 60 at the rate of 1 every 11 seconds, and they do not want to look old. This is an area of extreme interest to both patients and doctors. And thanks to advances in technology, many cosmetic procedures are safer and easier than ever before with minimal or no downtime.

Adding cosmetic surgery techniques to your practice is a fun and rewarding experience for you, your staff and your patients. But most importantly it is fun! Some of the procedures you will learn in this course can be performed immediately in your office and others will begin the journey in cosmetic surgery education.

## A new, better way of learning.

Since beginning our cosmetic facial surgery courses in 2004, Dr. Niamtu has trained hundreds of doctors from virtually every specialties including plastic surgery, dermatology, oculoplastic surgery, facial plastic surgery, ENT, oral and maxillofacial surgery, ophthalmology, cardiothoracic surgery, family practice, OB/GYN and others

The purpose of these courses is to present a didactic lecture format immediately followed by live surgical observation of the actual procedures. In this manner, course participants learn the procedure basics and observe the actual surgery. Students are free to enter the operating room for up close and personal observation of the surgical procedures.

In the past we offered three levels of instruction, minimally invasive, basic and advanced. Although this worked well for some doctors, we found that most attendees are interested in learning minimally invasive procedures as well as the surgical procedures. For novice surgeons that may not yet be doing these procedures, (or do not intend to do them in the future) it is important for them to understand basic and advanced cosmetic facial procedures to best serve their patients. For the intermediate surgeon, the basic and advanced observational surgery and lectures are exactly what is needed to progress in the field. For experienced surgeons the live surgery portion serves as a good review and learning experience.

Due to the above, this year (2010) we have decided to combine all the elements of the three courses into our Ultimate Facial Rejuvenation Course that will be offered in February and November. Now, for the first time, the attendee can get the experience of three courses for the price of one.

## Ultimate Facial Rejuvenation Live Cosmetic Surgery Workshop

*This course will include lectures and live surgeries on the following procedures:*

- **Facelift and Facial Liposuction**
- **Browlift (endoscopic and mini open technique)**
- **Eyelid Surgery**
- **Facial Implants (cheek and chin)**
- **Laser resurfacing (CO2, Fractional, Active FX, Deep FX)**
- **Chemical Peels (TCA and Obagi Blue Peel)**
- **Botox & Dysport**
- **Fillers (Juvederm, Restylane, Perlane, Evolence, Sculptra, Radiesse, Silicone and others)**
- **Mole Removal**
- **Radiowave Surgery**
- **Skin care...and more**

### SEMINAR DATES:

February 19-20-21, 2010

November 5-6-7, 2010

All participants will be able to observe live surgery in the operating room, therefore attendance is limited.

*Purchase Dr. Niamtu's HD Instructional DVD's on our website. One to One Preceptorships available. Selected courses will be simulcast on the internet live.*
