Dear Dr. Niamtu:

It is our pleasure to invite you to serve on the Editorial Board of *Aesthetic Surgery & Medicine*. Your background and expertise will be an asset to SLACK Incorporated's newest medical newspaper.

Slated to launch in February 2009, *Aesthetic Surgery & Medicine* will be a monthly newspaper designed to serve as the information source for busy aesthetic surgeons. *Aesthetic Surgery & Medicine* will reach more than 21,000 U.S. physicians, including the full universe of plastic, cosmetic facial, aesthetic, and dermatological surgeons, plus the full universe of dermatologists.

Aesthetic Surgery & Medicine will present original reporting and expert analysis, putting news in perspective for the reader's practice. Articles will focus on clinical skills, the art and science of aesthetic medicine, cosmeceuticals and other products, and practical information surgeons can use to run a more efficient practice.

As a board member, your role will be to serve as a resource for the editorial staff in their researching and writing articles for the magazine. You will be asked to contribute your perspective about a peer-reviewed journal article or a presentation at a meeting. You also may be asked to contribute a guest editorial. Additionally, we would welcome ideas regarding editorial content or specific articles.

You will be invited to attend our annual Editorial Board meeting, which is held in conjunction with the annual meeting of the Multi-Specialty Foundation for Aesthetic Surgery Excellence. Also, your name and affiliation will be featured on the Editorial Board masthead in each issue of *Aesthetic Surgery & Medicine*.

I hope that you will join the distinguished colleagues who will serve on this board. *Aesthetic Surgery & Medicine* will rely on participation of its editorial board members to be a trusted and valued source for readers. If you accept this appointment, please return the forward a copy of your curriculum vitae to the address below.

We look forward to your reply.

Sincerely,

Ronald L. Moy, MD
