**WELCOME TO THE COSMETIC SURGERY REVOLUTION.**

There has never been a time where there has been more public interest in cosmetic facial surgery. Today's patients have an increased appreciation for health and want to look as good as they feel. Exponential advances in surgery, materials, anesthesia and technology have made cosmetic surgery more acceptable than ever with more surgical and non surgical options available. Whether you are passionate about cosmetic facial surgery or merely wish to add these procedures to your practice, this course has something for everyone; doctors and staff.

Adding cosmetic surgery techniques to your practice is a fun and rewarding experience for you, your staff and your patients. More importantly, it is fun! Some of the procedures you will learn in this course can be performed immediately in your office and others will begin the journey in cosmetic surgery education.
