Mr. Julian Gangolli, President
North America Allergan, Inc.
2525 Dupont Drive
Irvine, California 92612

Dear Mr. Gangolli:

Children's Medical Services International, Inc. (CMSI) is so very grateful for Allergan's recent gift of Botox shipped directly to Jamaica. The donated 30 vials were kept in a small refrigerated safe and put to good use once Dr. Slater and his team of other doctors, nurses and physical therapists arrived at West Haven Children's Home. They immediately went to work administering the injections to those children with cerebral palsy whose disabilities showed immediate improvement. What a joy to see the children experience a different way of life! We hope to send you Dr. Slater's final report on the mission once it is finalized.

Once again, CMSI thanks you and all those at Allergan who made a big difference in the lives of disabled children at the West Haven Children's Home. Our motto, "From small beginnings come great things," became yet another miracle.

Best wishes for the holiday and new year.

Sincerely,

Billie Rees West
