Hi Dr. Niamtu..

Just wanted to let you and your staff know how pleased I am with my recent cosmetic procedure. It is the best thing I have ever done for myself.. ever!

One night, I looked in the mirror and was stunned to see the years on my face. Wondering when this had all happened.. because I sure didn't see it coming on. I tried creams, facials, sun treatments, over the counter peel products and even this battery operated mask thing that gave my face little shocks. One product hardened into a shell once it was put on.. the idea being that if your face didn't move, it would not wrinkle or sag.

It took a lot for me to call, and say I wanted a face lift.. but I did.. no one laughed, ridiculed or tried to tell me I was being vain and superficial. Looks may not be important to everyone, but it mattered to me. Having the surgery has made such a difference in how I feel about myself, and it has only been two weeks. I find myself talking to the sales people at CVS, and talking to my neighbors.. and making eye contact, which I must have stopped doing sometime in the past few years. I do not mind smiling now, I like to smile at people, because I do not look like a middle aged woman with saggy skin. I look like myself. And that is a wonderful gift.

Christian was wonderful... and Kelly, Jillian and Erin.. everyone made me feel at home, and not like I was in the wrong place for the wrong reasons.

I have spent the last 27 years giving all to my children.. my time, my energy, my money and I lost my youth along the way. The girls are growing and grown now. I don't mind telling people I have a 27 year old daughter, proud that I will be 50 on my next birthday.. because the way I look on the outside matches how I feel on the inside..

Thank you for all of this..
Laura Feldman
